OUR FLAGSHIP · PATENT PENDING

The Blue Blade

77" · 84"

A stainless-steel replacement ice resurfacer blade. It drops into the machine you already run, ships pre-sharpened, and goes to your usual sharpening house.

RP-101 · 77" RP-102 · 84"

AT LEAST **3–4x**

LONGER BETWEEN SHARPENINGS

Rinks report 6 to 8 weeks, against about weekly for a standard blade, per the machine makers.

58–62%

LIGHTER TO LIFT

23 lb at 77" and 25 lb at 84", against a typical 55 to 65 lb. Threaded for lifting handles.

AT LEAST **2x**

THE LIFESPAN

Of a standard blade. The stainless edge resists rust.

ABOUT 3x

CHEAPER PER CUTTING HOUR

In our two-year cost model. Ask for the Blue Blade Summary for the full comparison.

PRE-PRODUCTION RENDERING ·
BLADE SOLD SEPARATELY

RESURFACER BLADES

HDPE Blade Case

One solid piece of high-density polyethylene that won't rot, swell or splinter. The blade screws down through its own mounting holes.

77" RP-181 · 84" RP-182

SPREADER TOWELS

Non-Woven Spreader Towel

Non-woven fiber lays an even water layer without shedding lint into the ice.

77" RP-201 · 84" RP-203 ·
Custom RP-202

RESURFACER PARTS

Gum Rubber Squeegee

Stays pliable in the cold, so it keeps the seal the vacuum needs. Holes pre-punched; cut to length for your machine.

86" strip RP-601

RESURFACER PARTS

Run-Dry Water Pump Impeller

A compound that survives running dry, so a pump that loses its prime keeps its impeller. Supplied with mounting gaskets.

RP-602

Traction on the ice, clean edges at the boards.

STUDDED TIRES

Double Row Studded Tires

Firestone tires with a double row of straight, carbide-tipped studs and a 10-ply E load rating. Sold individually.

LT215/85R16 RP-301 • LT245/75R16 RP-302

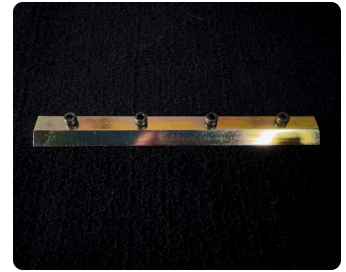

HAND EDGERS

Hand Edger

Made in-house for clearing ice along the boards and in corners a resurfer can't reach. The rust-resistant plated blade swaps out when spent.

RP-401

HAND EDGERS

Hand Edger Replacement Blades

6" replacement blades for our hand edger.

6" RP-402

POWER EDGER ACCESSORIES

Power Edger Bits

Titanium nitride coated square bits, set of two.

Set of 2 RP-501

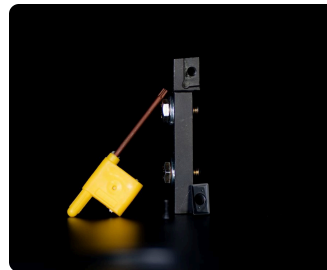

POWER EDGER ACCESSORIES

Power Edger Blade

Replacement cutting blade, supplied with its mounting hardware.

RP-502

POWER EDGER ACCESSORIES

Modular Power Edger Stick

Its two-sided cutting tip replaces on its own. Rotate it when the first side dulls, then fit a fresh tip. Ships with hardware, a Torx key and one tip.

RP-503

POWER EDGER ACCESSORIES

Replacement Cutting Tip

Two cutting sides per tip, for the modular power edger stick.

RP-504

Tell us your machine or edger and we will confirm the fit before you order.

ALSO ON REQUEST

- Sectional edge strips for stadium-class resurfacers
- Custom engraving on the Blue Blade
- Custom-length spreader towels up to 84"

Order online or direct.

In the United States and Canada, order online at rinkproducts.com. Elsewhere, order by email or phone. Card or invoice, with volume pricing on request.
